Maps (Last update 20-09-23)

- Awoken
- Blood Covenant
- Crucible
- Corrupted Keep
- Deep Embrace
- Ruins of Sarnath
- Vestibule of Exile

After listening to your feedback and reconsidering, KeenCon's Organisation has decided to bring Awoken and Blood Covenant to the pool and remove Molten Falls and Insomnia. This decision is in line with our desire to ensure that players have fun with their classic maps while we bring new experiences with new maps to our pool.

In addition, concerns about Crucible's performance have been heard and the Organization has run some tests in which some issues have been found: while "Weapon Effects" in Advanced options is activated, a FPS drop is experienced in the gameplay. Therefore, we are considering whether to substitute Crucible map in the pool or not. If there is a general consensus at the event, players will have the opportunity to vote to replace Crucible with Insomnia, always aiming to keep at least one of those two new maps in the pool.

“Admins” are the official representatives of the tournament organisers during all the events. The referees are empowered to represent and protect the tournament’s

integrity, tournament rules and are responsible for the players during the event.

If any questions or problems arise during the event, you must engage the Admins directly, none other. If you do engage someone that is not an Admin, and the information given to you is incorrect, or if you wait too long to report a problem even during the live event, you will be responsible for the consequences that occur. Admins have up to date information on match times, match rules, any potential in game variances.

Instructions and requests by the referees present at the event need to be followed immediately without delay at all times. Referees may make decisions that differ from the rulebook to protect the tournament's integrity

ELIGIBILITY

All participants must be 18 years or older.

DISCONNECTIONS

If a player disconnects involuntarily in the middle of a map or a crash happens, play will immediately stop, and players will be instructed to return to the lobby. The current score line will be recorded and carried over to the map. The match shall be restarted with the remaining time left in the previous match.

Only the administrator of the tournament will have the rights to stop any game at any time.

PUNCTUALITY AND TIME SLOT

To avoid delays and ensure tournaments are run in a timely fashion, players are expected to complete their matches for each round by a specific time, no more than 60 minutes per round. If a player arrives 20 minutes late to the expected starting time will be considered as a game lost.

ADMINS

Any issue that impacts player gameplay must be reported to an Admin immediately. Every player is responsible for communicating any unplayable conditions.

No bags, backpacks or phones will be allowed on tournament stages.

Warm-up schedule will be enforced by administrators.

PLAYERS
